

Fire Morels For Profit

Doris Price

Doris has always found time to help others by sharing her knowledge and sense of fun. One more opportunity presented itself while in the Northern Climes of BC, hunting and picking fire morels.

As an avid, seasoned mushroom picker, Doris wanted to share her experience and help mushroom-pickers start picking the right way without having the heartache of having mushrooms discarded by buyers because they were not picked correctly.

Doris got the idea for writing this booklet while standing in line forever at a buyers station. Hot, dirty, tired and hungry she watched while the buyer patiently explained to pickers what he wanted. He sorted through each basket and actually sent away people to reclean their mushrooms or refused to buy because what was offered was too wet, crushed or dirty. So she consulted a few very experienced pickers and heeded the complaints of the buyers. The result was the booklet "Fire Morels For Profit".

"Fire Morels For Profit" was released for sale Feb 20.2012 through Amazon book store. It is also available on Kindle.

Apart from enjoying the outdoors, camping and hunting Fire Morels, Doris is an avid RedHat Lady. She belongs to the Prince George, BC chapter. She recently went on a tour by VIA rail to Prince Rupert to visit the local RedHat Ladies there

If you wish to engage Doris for a photo shoot or interview, please contact SC Public Relations at 800 567-4528.
